Re: Aggregate Primary Care Vaccination Report

---

Together with our stakeholders, Ontario Health will be providing you with a new report to help you identify patients in your panel that have received a COVID-19 vaccine. This Aggregate Primary Care Vaccination Report will be available for all primary care providers who practice as part of a patient enrollment model (FHO, FHG, FHN, or CCM). The report will be accessed through an online platform similar to the Screening Activity Report. It will be updated monthly and will include information on the vaccine type (e.g. Pfizer, Moderna, or Astra Zeneca), as well as when the vaccine was received.

We anticipate the online tool will be ready by the middle of July 2021. We recommend that you utilize this tool to proactively identify and reach out to patients who may need your assistance in getting vaccinated.

A OneID account is required to access the report. Here is what you can do now in preparation:

1. Log in to your ONE<sup>®</sup> ID account here: <https://oneid.ehealthontario.ca/login>
2. If you have forgotten your password, click the “Forgot Password” link on the login screen to reset your password.
3. If you do not have a ONE<sup>®</sup> ID account, physicians need to log in to the CPSO Members Portal to self-register for a ONE<sup>®</sup> ID account here: <https://my.cpso.on.ca/>

For instructions on completing your ONE<sup>®</sup> ID self-registration, refer to the [ONE<sup>®</sup> ID CPSO Registration Guide](#).

If you require further assistance with accessing your ONE<sup>®</sup> ID account, please call the Ontario Health Digital Support Desk at 1-866-250-1554 or email [OH-DS\\_servicedesk@ontariohealth.ca](mailto:OH-DS_servicedesk@ontariohealth.ca) for assistance.

If you have any questions about the upcoming Aggregate Primary Care Vaccination Report, please email [OH-HQO\\_PrimaryCare@ontariohealth.ca](mailto:OH-HQO_PrimaryCare@ontariohealth.ca)
